BILLING OPTIONS

Enter your banking information: Name of bank, address, city, state. Enter the Bank transit routing # and then your Account #, please mark whether this account is a checking or savings account.

DELAYED BILLING—All packs of tickets delivered at one time and listed on one invoice are billed to the retailer statement 1 – 3 weeks later depending on the option chosen by the retailer under delayed billing system: 0, 1, or 2.

CONSIGNMENT FIXED DELAYED BILLING—Packs of tickets will be billed only after they are opened and the first winning ticket validation (of any prize amount) occurs. Unopened packs are considered Lottery inventory and will not be billed until the first validation for that pack takes place. The actual payment can be delayed by choosing a delay of 0, 1, or 2 weeks.

CONSIGNMENT 90/60—Packs of tickets will become activated once they are opened and the first winning ticket validation (of any prize amount) occurs. The packs of tickets will then be billed when 90 percent of the winning tickets have been validated or 60 days after the first validation, whichever comes first.

EFT PAYMENT AND AUTHORIZATION AGREEMENT

Lottery Retailers are required to participate in the Electronic Funds Transfer (EFT) system for payment of both scratch and on-line products. Your signature on the application indicates your authorization for the Missouri Lottery to initiate debit and credit entries to the bank account indicated. The following are some of the most frequently asked questions and answers regarding EFT.

A. What are the advantages for me in using the EFT system?

You will know exactly when your account will be debited and the transaction will occur at the same time every week. The cost of writing and mailing a check is eliminated and you are assured the funds are received.

B. Is a separate lottery account advisable and how much money should I put in the account?

The Lottery does not require you to open a separate account for lottery transactions unless you want to keep lottery funds separate from your other business or personal funds. Your bank may charge extra for maintaining an additional account. The money in the account must be equal to the Total Amount Due on your statement for instant tickets and/or on-line games. If you have return tickets or additional prize credits, they will be reflected on your next statement. The system will not accept any amount less than the Total Amount Due.

(continued on next page)

Your bank charges should be considered when determining how much money to deposit in the account to cover the EFT sweep. It would be advisable to maintain a “cushion” in the account to help ensure sufficient deposits for EFT sweeps.

C. Can I use my present bank for EFT?

Yes, any bank is acceptable. If your bank is not a member of the Mid-America Payment Exchange and cannot handle our EFT transaction, please contact Game Accounting at 1-866-665-6883.

D. Whose name should be on the account?

You should use the business name exactly as it appears on your Missouri Lottery Retail License.

E. When must my money be deposited in the EFT account for transfer to the Lottery?

The funds required by the statement must be deposited to your lottery account no later than the close of bank business on the day before the sweep occurs. You should check with your bank to determine the cutoff time for deposits to be posted for that day. Do not depend on cash deposited in the night deposit box to be posted in time for the EFT sweep.

F. What will happen if the proper amount of money is not in my EFT account at the time the transfer to the Lottery occurs?

If you have an NTF, you will receive notification from Game Accounting. It is imperative that you deposit the correct amount in a timely manner because the Lottery may access a service charge.

G. What do I do if I have a problem with my EFT bank account statement and do not want to risk the Lottery getting a NTF?

Call Game Accounting immediately at 1-866-665-6883 to discuss the problem. A determination will be made at that time.
