#### **Letter of Transmittal**

November 28, 2017

To: John Twitty, Chairperson, Missouri State Lottery Commission Paul Kincaid, Member

Dr. Judene Blackburn, Member

May Scheve Reardon, Executive Director

Citizens of the State of Missouri

#### Introduction

We are pleased to submit to you this Comprehensive Annual Financial Report (CAFR) of the Missouri State Lottery Commission (the Lottery) for the fiscal years ended June 30, 2017 and 2016. Management is responsible for the accuracy of the financial data, as well as the completeness and fairness of the information and disclosures within this report. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position, results of operations and cash flows of the Lottery. We have included all disclosures necessary to enable the reader to gain an understanding of the Lottery's financial activities.

The Comprehensive Annual Financial Report presents an overview of the Lottery and is organized into four sections. The Introductory Section includes this letter of transmittal, certificate of achievement and an organizational chart. The Financial Section includes the report of independent auditors, management's discussion and analysis, the basic financial statements with the accompanying notes, and required supplementary information. The Statistical Section presents a variety of historical, demographic and industry data. The final section, Compliance Section, includes a report on internal control and compliance.

#### **Background**

The Lottery was created by the passage of a constitutional amendment on November 6, 1984, by the citizens of the State of Missouri. Ticket sales began January 20, 1986, with the introduction of a single scratch-off game, "Jackpot '86." This represented the first legislatively authorized lottery tickets sold in Missouri since the New Franklin Railroad Lottery (later known as the Missouri State Lottery) was closed down in 1877.

When the Lottery began in 1986, proceeds from ticket sales went to the Missouri State General Revenue Fund. In August 1992, voters passed Amendment 11 earmarking Lottery proceeds to solely benefit public education. Each year, the Missouri Legislature determines how these proceeds will be allocated. The proceeds represent about 4 percent of the total funding for Missouri's public elementary, secondary and higher education systems.

Lottery funds help support a variety of programs including the elementary and secondary education Foundation formula, transportation, early childhood development and special education services, vocational rehabilitation, performance-based assessment program, Access Missouri and A+ programs, college and university operating budgets, and minority teaching scholarships. These programs and others that receive Lottery money provide the resources that help Missouri students fulfill their individual dreams – dreams that define Missouri's future and ultimately benefit all Missouri residents.

The Lottery is a Type III division assigned to the Missouri Department of Revenue as defined in Section 313.210 of the Missouri Revised Statutes. The Department of Revenue has no control, supervision or authority over the actions or decisions of the Lottery. The Lottery Commission consists of five members appointed by the Governor with the advice and consent of the Senate.

The Lottery is an enterprise fund of the State of Missouri and is included in the State's Comprehensive Annual Financial Report. This report presents the activity of the Lottery as a single enterprise fund and does not include information related to any other state agency or fund.

#### **Products**

The Lottery provides the opportunity for the public to participate in a variety of instant games ("Scratchers"), Draw Games, and Pull-Tab games. The games are described as follows:

Scratchers Games are played by scratching off a latex coating on the play area of the ticket. There are different ways to win, including matching certain symbols, adding up to a specified total or otherwise satisfying the requirements listed on the ticket. If the specified condition occurs, the ticket is an instant winner. These play styles are combined with a variety of game themes and ticket prices. These games were the first type of games offered by the Lottery. For fiscal year 2017, Scratchers ticket sales were \$868.9 million, which represents 64.7 percent of total ticket sales.

Draw Games allow players to select the numbers for their wager or players may utilize computer-generated plays (Quick Picks). The player receives a ticket with the numbers selected or automatically generated and must await the results of a drawing to determine if they have matched the numbers and won.

Powerball is a multi-state Draw Game jointly operated by the 36 MISSOURI member lotteries of the Multi-State Lottery Association and sold in 44 states, D.C., Puerto Rico and the U.S. Virgin Islands. Players select one set of five numbers from a pool of one to 69 and one additional number designated as the "Powerball" from a second

pool of one to 26. To win the jackpot, all six numbers must be matched. The minimum jackpot amount is \$40 million, which increases for each subsequent draw when the jackpot is not won. There are eight secondary prizes of fixed amounts, ranging from \$4 to \$1,000,000. The Power Play feature allows players the chance to increase the original prize amount, excluding the jackpot prize. Players who use Power Play and match all five white-ball numbers automatically win \$2 million. A jackpot winner may select either an annuitized prize paid over 29 years (30 payments) or a lump-sum payment. Drawings are held every Wednesday and Saturday night. Powerball sales for fiscal year 2017 were approximately \$94.9 million, which represents 7.1 percent of total ticket sales.

Missouri Lotto is the original in-state Draw Game that creates millionaires. Twice a week, on Wednesdays and Saturdays, Lotto players have a chance to win \$1 million or more. Players select six numbers from a pool of one to 44 and must match all six numbers to win the jackpot. Prizes are also paid for matching three, four or five numbers. The jackpot starts at \$1 million and increases, based

upon ticket sales, for each subsequent draw when the jackpot is not won. Jackpot winners may select either an annuitized prize over 24 years (25 payments) or a lump-sum payment. Lotto Doubler was added beginning November 4, 2012, giving players the chance to double their non-jackpot winnings whenever a Lotto ticket is purchased. Through a random process, the Lottery designates certain Lotto tickets as Doubler tickets. There is no additional cost for the Doubler feature. EZ Match was added beginning November 2016. Players can add EZ Match for an additional \$1 per Lotto play. If the EZ Match option is chosen, six EZ Match numbers print on the Lotto ticket below the Lotto numbers. If any of the EZ Match numbers match the Lotto numbers purchased (regardless of order), the player instantly wins the prize amount printed next to the matched EZ Match numbers. Lotto and EZ Match sales were approximately \$18.3 million and \$.2 million in fiscal year 2017, representing 1.4 percent and 0.02 percent of total ticket sales, respectively.

Show Me Cash replaced Show Me 5 Paydown in September of 2008. Players select five numbers from a pool of one to 39 and must match all five numbers to win the jackpot. The jackpot starts at \$50,000, and if no player matches all five numbers, the top prize increases based on ticket sales. Prizes are also paid for matching two, three or four numbers. Drawings are held daily. Players can add EZ Match for an additional \$1 per

Show Me Cash play. If the EZ Match option is chosen, five EZ Match numbers print on the Show Me Cash

ticket below the Show Me Cash numbers. If any of the EZ Match numbers match the Show Me Cash numbers purchased (regardless of order), the player instantly wins the prize amount printed next to the matched EZ Match numbers. Fiscal year 2017 Show Me Cash and EZ Match sales were approximately \$29.8 million and \$3.0 million, or 2.2 percent and 0.2 percent of total ticket sales, respectively.

With Pick 3, players select three numbers between zero and nine and can play the numbers straight (numbers in the exact order), boxed (numbers in any order), front/back pair (match the exact order of the first or last two digits), or combo (provides the player all possible number combinations of the three numbers drawn for exact-order

win). Beginning June 16, 2013, a new 1-Off wager type was added (win even if numbers are one number higher or lower than the winning numbers drawn), and EZ Match was added beginning November 2016. Players can add EZ Match for an additional \$1 per Pick 3 play. If the EZ Match option is chosen, three EZ Match numbers print on the Pick 3 ticket below the Pick 3 numbers. If any of the EZ Match numbers match the Pick 3 numbers purchased (regardless of order), the player instantly wins the prize amount printed next to the matched EZ Match numbers. Drawings are conducted twice per day. For fiscal year 2017, Pick 3 and EZ Match sales were \$74.4 million and \$.5 million, which was 5.5 percent and 0.04 percent of total ticket sales, respectively.

Pick 4 is played similar to Pick 3 with players selecting four numbers between zero and nine. Players may play the numbers straight, boxed, front/middle/back pair, front/back three (match the exact order of the first or last three digits), or combo (provides the player all possible number combinations of the four numbers drawn for exact-order win). Similar to Pick 3, the 1-Off wager type (win even if numbers are one number

higher or lower than the winning numbers drawn) and the EZ Match feature were also added to Pick 4. Drawings are conducted twice per day for Pick 4. Fiscal year 2017 Pick 4 and EZ Match sales were \$48.3 million and \$.4 million, or 3.6 percent and 0.03 percent of total ticket sales, respectively.

Club Keno is a Draw Game offered in all Missouri Lottery retail locations and provides drawings every four minutes. Players first choose how many different numbers (also called "spots") they wish to play from one to 10. The player must then choose a number from one to 80 for each spot. Twenty numbers from the pool of one to 80 are chosen in a computerized random Club Keno drawing. Prizes vary depending on how many spots a player chooses and how many of the players' numbers match the numbers drawn. Club

Keno also offers Multiplier, Bulls-Eye, Progressive Jackpot and Double Bulls-Eye features. For fiscal year 2017, Club Keno sales were \$56.7 million, which was 4.2 percent of total ticket sales.

Mega Millions is a multi-state Draw Game available for sale in 44 states, D.C. and the U.S. Virgin Islands. Players select five different numbers from a pool of one to 75 then select one Mega Ball number between 1 and 15. All six numbers must be matched to win the jackpot. The jackpot starts at \$15 million and increases for each draw when the jackpot is not won. There are eight secondary

prizes of fixed amounts ranging from \$1 to \$1,000,000. Players have the option to select the Megaplier feature that will increase the non-jackpot prize winnings by two, three, four or five times their original amount. A jackpot winner may select a lump-sum payment or an annuity paid over 29 years (30 payments). Drawings are held every Tuesday and Friday night. Mega Millions sales for fiscal year 2017 were approximately \$32.2 million, which represents 2.4 percent of total ticket sales.

Lucky for Life was launched in January of 2015 and is the Lottery's newest multi-state Draw Game. It is currently offered in 24 states and D.C. For \$2, the game features a top prize of \$1,000 a day for life and a second prize of \$25,000 a year for life. Top and second prize winners may select either an annuitized prize over a minimum of 20 years or a lump-sum payment. Players select five numbers from 1 to 48 then one number (the Lucky Ball) from 1 to 18. Drawings are held on Monday and Thursday nights. Fiscal year 2017 sales

were \$7.8 million, or 0.6 percent of total ticket sales.

Pull-Tabs were re-introduced in October of 2013 using new dispensers that allow for better security and accounting. Pull-Tabs are Lottery tickets with tabs that are pulled open to reveal cash prizes. Players also have the option to play through the dispenser's interactive touch-screen. The cost of the tickets is 50 cents, \$1 or \$2 and the top prize is \$600. During fiscal year 2017, sales from this product line were approximately \$107.2 million, or 8.0 percent of total ticket sales.

### **Highlights of The Past Year**

Ticket sales for the Lottery surpassed the \$1 billion mark for the seventh year in a row and set a new record high. Fiscal year 2017 sales of \$1.343 billion were ahead of fiscal year 2016 sales of \$1.316 billion by \$27 million, or 2.06 percent. Pull-Tab and Scratchers sales were up \$35.7 million and \$33.3 million, respectively, while overall Draw Games sales were down \$41.9 million compared to previous year levels.

For fiscal year 2017, the level of operating expenses increased by 4.4 percent. Total operating expenses increased from \$1,025.0 million in fiscal year 2016 to \$1,070.5 million in fiscal year 2017. The increase is attributable mainly to prizes related to the record-breaking sales year. Prizes increased by \$43.2 million. Administrative costs increased slightly due to GASB 68 pension expense. The Lottery continues to operate with one of the lowest administrative cost ratios in the country. The net impact of these results for fiscal year 2017 was the second highest actual cash transfer of profits to public education in Lottery history of \$297.9 million, down from fiscal year 2016's actual cash transfer of \$309.0 million because of the record-breaking Powerball jackpot in 2016 and the higher profitability of the Powerball game compared to the Scratchers and Pull-Tab games. In addition, the Lottery returned \$932.1 million to players in cash and prizes and \$78.5 million to retailers in commissions and incentives for the 2017 fiscal year.

Management's discussion and analysis (MD&A) can be found immediately following the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements. The Lottery's MD&A complements this letter of transmittal and should be read in conjunction with it.

In addition to financial accomplishments, other noteworthy accomplishments during fiscal year 2017 included:

- Rollout of new state-of-the-art self-service vending machines.
- Closeout of former loyalty program and mobile app in preparation for a new and improved loyalty
  program and mobile app in which tickets can be scanned for entry into the program from a mobile
  device and club members can spend prize points on gifts cards, Lottery coupons and other digital
  prizes.
- New EZ Match add-ons for Lotto, Pick 3 and Pick 4.
- Exceeding minority- and women-owned business expenditure goals of 10 percent and 5 percent, respectively, with participation rates of 14.55 percent and 5.55 percent, respectively.

#### **Economic Conditions and Outlook**

The U.S. and Missouri economies saw economic growth over the past year. While exhibiting positive growth, there were some signs that economic growth is still uneven. During 2016, Missouri's Gross Domestic Product totaled over \$300.9 billion, which was an increase of 2.8 percent from 2015. Missouri had the 22nd largest GDP among the states in 2016, and of the surrounding states, only Illinois (5th) and Tennessee (18th) have larger economies than Missouri. The U.S. GDP increased 3 percent during the same time period with 43 out of 50 states experiencing GDP growth.

The unemployment rate has fallen below the pre-recession rate of 5 percent. At the end of fiscal year 2017, unemployment in Missouri was 3.8 percent, down from 4.7 percent at the start of the fiscal year. Unemployment rose slightly at the start of the fiscal year peaking in September, and then gradually declined to 3.8 percent, which is the lowest unemployment rate since September 2000. The unemployment rates in Missouri generally follow the national trend. The U.S. unemployment rate was 4.4 percent at the end of the fiscal year, down from 4.9 percent at the start of the fiscal year.

Consumer spending in the U.S., which makes up approximately 70 percent of the economy, grew at the annualized rate of 2.8 percent in 2016 with disposable income rising 2.2 percent, giving consumers modestly improved purchasing power. Taxable sales in Missouri rose over 1.9 percent in 2016.

Missouri's per capita income rose to \$43,723 or 2.6 percent in 2016. Missouri had the sixth lowest cost of living index in the U.S. as of the second quarter of 2017 at 89.9 which was unchanged from the 2016 index.

In fiscal year 2017, gasoline prices fluctuated between \$1.88 and \$2.22 per gallon with the weekly average being \$2.06 per gallon, which is up slightly from fiscal year 2016 – an increase of \$0.01 or 2.9 percent in the weekly average price per gallon.

The three major U.S. stock markets had an unprecedented year of growth in fiscal year 2017. The Dow Jones (DJIA) ended the fiscal year up approximately 17.6 percent. The DJIA ended the fiscal year at 21,350. The S&P 500 ended the year up over 11.8 percent, while the NASDAQ ended the year up over 26.3 percent. All three markets ended fiscal year 2017 either at or very near record high closing.

Missouri Lottery sales are expected to continue an upward growth trend in fiscal year 2018 likely at a similar rate that the economy is expanding. Uncertainty around high multi-state jackpots makes it difficult to compute lottery sales and transfer projections. The Lottery will continue to focus its advertising budget on our philanthropic branding, sponsorships, new game launches and promotions. Programs for the Pull-Tab product and the Pay at the Pump alternative selling locations model are ongoing. Other initiatives include a recent successful rollout of new state-of-the-art self-service vending machines, a re-tooled loyalty program and mobile app, continued promotion of our products with integrated product promotions and events (including both Scratchers and Draw Games), and new Draw Game features and add-ons.

#### **Relevant Financial Policies**

### **Budgetary Controls**

The Lottery annually submits a request for appropriation through the budgetary process of the State of Missouri. Expenditures of the Lottery are subject to this annual appropriation process. Certain costs of operations for the Lottery are paid directly by the Missouri Office of Administration through appropriations administered by that agency. These costs include employee benefits, select capital improvements projects and certain facility-related costs.

Expenses associated with the operation of the Lottery are submitted for payment through the statewide accounting system. The Lottery maintains its own signature authority for payment of prizes through an imprest checking account. The Lottery has its own purchasing authority and has adopted the same rules and procedures as that of the Office of Administration, Division of Purchasing and Materials Management.

All profits from Lottery operations are designated for appropriation by the State solely for the institutions of public elementary, secondary and higher education. The Lottery makes estimated weekly transfers to the Lottery Proceeds Fund with a monthly transfer adjustment done based on calculated net income for the month.

### **Debt Administration**

The Lottery's long-term liabilities are primarily payments owed to multi-year prize winners in the form of annual payments. These payments are fully funded by U.S. Treasury Strips held by the State of Missouri. The payments due Powerball and Mega Millions jackpot winners are funded through securities purchased and held by the Multi-State Lottery Association. As such, the Lottery does not record, and the financial statements do not reflect, a liability for future payments of Powerball and Mega Millions prizes funded by the Multi-State Lottery Association. The financial statements also do not reflect annuity contracts purchased from selected insurance companies to fund for-life prizes, as it is the intent of the Lottery that the insurance companies will make future installment payments directly to each prize winner.

### **Internal Control Environment**

Management of the Lottery is responsible for establishing and maintaining an internal control structure designed to ensure that assets are protected from loss, theft or misappropriation. The internal control system is also designed to ensure that the accounting system provides accurate and timely financial information and that the

Lottery is in compliance with applicable laws and regulations. Because the cost of a control should not exceed the benefits to be derived, the objective is to provide reasonable, rather than absolute assurance, that the financial statements are free of any material misstatements.

To enhance controls over accounting procedures, the Lottery has segregated appropriate functions, where feasible, and added additional administrative reviews of areas not clearly segregated to ensure compliance with established control policies.

Section 313.315 of the Missouri Revised Statutes requires the State Auditor to conduct a biennial audit of all accounts and transactions of the Lottery, and such other special audits, as it may deem necessary. The Lottery is also required to employ an independent firm of accountants to conduct an annual audit of all accounts and transactions of the Lottery. This audit includes consideration of internal controls over financial reporting as they relate to the expression of an opinion on the financial statements.

In addition, the Lottery has, from time to time, employed the services of other qualified external firms to conduct reviews of our security procedures for data processing and controls with game operations.

#### **Government Finance Officers Association Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Missouri State Lottery Commission for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the 17th consecutive year that the Lottery has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

# Acknowledgements

The preparation of this Comprehensive Annual Financial Report reflects our commitment to maintain the highest standards of public accountability. We reaffirm our commitment to continually improve our financial management and maintain the public's trust by exhibiting the highest ethical standards and uncompromising integrity. Publication of this report could not have been accomplished without the dedicated efforts of our employees, especially those within the Financial and Business Services Section. We would also like to recognize Executive Director May Scheve Reardon, Commission Chairperson John Twitty, and Commissioners Paul Kincaid and Dr. Judene Blackburn for their support, guidance and dedication in operating the Missouri Lottery Commission in a responsible and progressive manner.

Respectfully submitted,

Judy Martin, CPA Chief Financial Officer

#### INDEPENDENT AUDITORS' REPORT

Missouri State Lottery Commission Jefferson City, Missouri

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the Missouri State Lottery Commission, an enterprise fund of the state of Missouri, as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Missouri State Lottery Commission as of June 30, 2017 and 2016, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

As discussed in Note 1, the financial statements present only the Missouri State Lottery Commission and do not purport to, and do not, present fairly the financial position of the state of Missouri, as of June 30, 2017 and 2016, and the changes in its financial position, or, where applicable, its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension schedules on pages 14 to 22 and page 40 to 41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2017, on our consideration of the Missouri State Lottery Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Missouri State Lottery Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Missouri State Lottery Commission's internal control over financial reporting and compliance.

St. Louis, Missouri November 28, 2017

(An Enterprise Fund of the State of Missouri)

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

The following Management's Discussion and Analysis (MD&A) provides an overview of the Missouri State Lottery Commission's (the Lottery) financial performance and financial activities for the fiscal years ended June 30, 2017 and 2016. The information contained in this MD&A should be considered in conjunction with the information contained in the financial statements and notes to the financial statements.

### **Financial Statements Presented in This Report**

The Lottery is a Type III division of the State of Missouri, created to generate revenues for public education through the operation of a lottery. The Lottery's activities are accounted for as an enterprise fund using the accrual basis of accounting, which is comparable to the method used by private business entities. The Lottery is an enterprise fund of the State of Missouri and is included in the State's Comprehensive Annual Financial Report. This report presents the activity of the Lottery as a single enterprise fund and does not include information related to any other state agency or fund.

This annual report includes three financial statements for the fiscal years ended June 30, 2017 and 2016. The Statements of Net Position provide information on the nature and amount of the Lottery's assets, liabilities, deferred outflows and inflows, and net position at the end of each fiscal year and provide a measure of the Lottery's economic resources. The Statements of Revenues, Expenses and Changes in Net Position reflect the operating and non-operating revenues and expenses and the changes in net position for each year. The Statements of Cash Flows reconcile the changes in cash and cash equivalents with the activities of the Lottery for each year.

The Notes to the Basic Financial Statements provide additional detailed information to supplement the basis for reporting and nature of key assets and liabilities.

# Financial Analysis Summary of Net Position

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

#### **Current Assets**

Current assets consist primarily of cash and cash equivalents, accounts receivable from retailers and the current portion (maturing within one year) of investments held in United States guaranteed marketable securities on behalf of past grand-prize winners. During fiscal year 2017, current assets increased by \$5,622,374 due to increases in cash and cash equivalents and accounts receivable from retailers.

During fiscal year 2016, current assets increased by \$4,209,091 due to an increase in cash and cash equivalents offset by a decrease in investments held for grand-prize winners.

#### **Noncurrent Assets**

Investments held for grand-prize winners represents the market value of the investments held in United States guaranteed marketable securities on behalf of past grand-prize winners that mature beyond one year. These investments were purchased to fund the annual payments for winners that were required to or elected to receive annuity payments and consist of United States Government-backed obligations of zero coupon bonds and stripped securities that equal the face amount of the bond or security upon maturity. Originally, winners of jackpots were required to receive annuity payments. Subsequently, winners were allowed to elect a lump-sum payment instead of a long-term annuity. Since this option has been available, the trend among winners has generally been to elect the lump-sum payment and, therefore, fewer purchases of securities have been required. In fiscal year 2017, this category decreased by \$2,333,304. In fiscal year 2016, this category decreased by \$914,896.

Capital assets consist of land, buildings, vehicles, computers and software, and other equipment and is reported net of all related accumulated depreciation. In fiscal year 2017, the level of capital assets increased by \$34,346 due to the cost of additions to capital assets exceeding the level of depreciation expenses for the fiscal year.

In fiscal year 2016, the level of capital assets increased by \$572,233 due to the cost of additions to capital assets exceeding the level of depreciation expenses for the fiscal year.

#### **Deferred Outflows**

Deferred outflows represent pension contributions made subsequent to the measurement date, differences between expected and actual experience related to pensions, differences between projected and actual investment earnings on pension plan investments, and changes in pension plan assumptions. This category increased by \$3,638,523 due mainly to changes in pension plan assumptions and differences between projected and actual investment earnings on pension plan investments.

In fiscal year 2016, this category increased by \$859,475 due mainly to changes in pension plan assumptions.

#### **Current Liabilities**

Current liabilities consist primarily of accrued prize liabilities, other accrued expenses, amounts due the Lottery Proceeds Fund, and accounts payable to suppliers. In fiscal year 2017, current liabilities increased by \$4,383,032 which was mainly the result of an increase in accrued prize liabilities of \$9,808,737 offset by a decrease in the amount due the Lottery Proceeds Fund of \$6,187,960.

In fiscal year 2016, current liabilities increased by \$3,816,179 which was mainly the result of an increase in accrued prize liabilities of \$10,653,408 offset by a decrease in the amount due the Lottery Proceeds Fund of \$7,083,246.

#### **Long-Term Liabilities**

Long-term liabilities include the long-term portion of amounts payable to grand-prize winners, the deferred portion of the amount due the Lottery Proceeds Fund, and net pension liability. For fiscal year 2017, long-term

(An Enterprise Fund of the State of Missouri)

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

liabilities increased by \$5,052,211 due to an increase in net pension liability of \$5,029,505. The deferred amount due the Lottery Proceeds Fund represents the net book value (cost less accumulated depreciation) of capital assets acquired after September 1, 1988, and all amounts receivable from the Multi-State Lottery Association.

For fiscal year 2016, long-term liabilities increased by \$1,172,114. The long-term liabilities for the grand-prize winners in fiscal year 2016 declined by \$2,434,620. The deferred portion of the amount due the Lottery Proceeds Fund increased in fiscal year 2016 by \$672,619. The increase was the result of capital asset additions exceeding depreciation expense recognized during the fiscal year. Net pension liability increased by \$2,934,115 over fiscal year 2015.

#### **Deferred Inflows**

Deferred inflows represent differences between expected and actual experience related to pensions, differences between projected and actual investment earnings on pension plan investments, changes in proportion and differences between Lottery contributions and proportionate share of contributions, and changes in pension plan assumptions. This category decreased by \$76,338 due mainly to decreases in differences between expected and actual experience and changes of assumptions related to pensions.

For fiscal year 2016, this category decreased \$2,147,161 due to a decrease in differences between projected and actual investment earnings on pension plan investments.

#### **Net Position**

Net position invested in capital assets is unrestricted. Restricted net position is the cumulative result of increased fair market value of the United States guaranteed marketable securities held by the Lottery to pay prize winners on an annuity basis.

Changes in net position are the result of fluctuations in market yields, which increase or reduce the unrealized gain on investments. In fiscal year 2015, a prior period adjustment was recorded to establish the Lottery's net pension liability pursuant to GASB 68.

Because the Lottery is required to transfer its net income (excluding unrealized gain or loss on investments, amortization of grand-prize winner liability, and change in net position related to pensions) to the Lottery Proceeds Fund, the changes in net position do not reflect the results of the Lottery's operating activities. The amounts reported as Transfer to the State of Missouri reflect the Lottery's operating activities for the fiscal years.

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

# Lottery Sales By Product in millions

Ticket sales in fiscal year 2017 were ahead of fiscal year 2016 levels by \$27.0 million, or 2.1%. Scratchers sales increased by \$33.3 million, or 4.0%, while Draw Game sales decreased by \$41.9 million, or 10.3%. Pull-Tab sales increased by \$35.7 million, or 49.9%.

Ticket sales in fiscal year 2016 were ahead of fiscal year 2015 levels by \$188.3 million, or 16.7%. Scratchers sales increased by \$91.8 million, or 12.3%, while Draw Game sales increased by \$54.9 million, or 15.5%. Pull-Tab sales increased by \$41.6 million, or 139.1%, as a result of expansion to liquor-by-the-drink locations in December of 2015.

Most of the increase in fiscal year 2017 Scratchers sales can be attributed to the first full year of the \$30 Scratchers game, which added sales of \$115.0 million, an increase of \$35.7 million over six months of sales in fiscal year 2016. Scratchers \$3, \$5 and \$10 price point sales also grew over the sales of the previous fiscal year, offsetting declines in the \$1, \$2 and \$20 price points.

Most of the increase in fiscal year 2016 Scratchers sales can be attributed to the launch of the first \$30 Scratchers game, which added sales of \$79.3 million. Scratchers \$2, \$3, \$5 and \$10 price point sales also grew over the sales of the previous fiscal year, offsetting declines in the \$1 and \$20 price points.

#### **Scratchers Ticket Sales By Price Point**

(An Enterprise Fund of the State of Missouri)

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

Total Draw Game sales decreased by \$41.9 million in fiscal year 2017 due mainly to Powerball. Powerball sales were down \$35.9 million due to the prior year's record \$1.59 billion Powerball jackpot. Lotto, Club Keno, Mega Millions and Lucky for Life sales were also down, while Pick 3, Pick 4, Show Me Cash and EZ Match sales were up.

Total Draw Game sales increased by \$54.9 million in fiscal year 2016 due mainly to Powerball. Powerball sales were up \$49.2 million over fiscal year 2015 due to the record \$1.59 billion jackpot. Pick 3, Pick 4, Lotto, Club Keno, EZ Match and Lucky for Life sales also showed increases, while Show Me Cash and Mega Millions sales were down slightly. \$250K Triple Play sales, which were discontinued in January 2016, were down \$2.5 million from fiscal year 2015.

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

# **Direct Expenses**

Most costs and expenses that comprise direct expenses are related to specific games and, thus, vary proportionately with the change in sales of the related game. However, some variability does occur due to the nature of some expenses, and activities, events and programs, which may occur during any period of time. These expenses include prize expenses, retailer commissions and incentives, Scratchers ticket printing costs and Draw Game and Pull-Tab vendor fees.

Of the Lottery's total operating expenses of \$1,070.5 million in fiscal year 2017, \$1,034.2 million, or 96.6 percent, are game-related, or direct, expenses. In fiscal year 2016, direct expenses were \$990.6 million, or 96.6 percent, of the \$1,025.0 million total operating expenses. In fiscal year 2015, direct expenses were \$840.0 million, or 96.2 percent, of the \$873.5 million total operating expenses.

Prize expense for fiscal year 2017 increased by approximately \$43.2 million, or 4.9 percent, while total ticket sales increased by 2.1 percent. Prize expense for fiscal year 2016 increased by approximately \$133.4 million, or 17.66 percent, while total ticket sales increased by 16.70 percent. The variance between the percentage increase in prize expense and sales reflects the effects of the increased prize structure of the Scratchers and Pull-Tab products, while the random selection of winning numbers may result in deviations from expected results in a short-term period for Draw Game products.

Retailer commissions and incentives in fiscal year 2017 increased by approximately \$.5 million, or 0.6 percent. Retailer commissions and incentives in fiscal year 2016 increased by approximately \$9.6 million, or 14.0 percent. These categories and results more closely follow the sales trends than prize expense. Variations will occur due to additional promotional activity to promote selected games and the number of jackpots won during the year.

Scratchers ticket printing expenses increased in fiscal years 2017 and 2016 by \$.1 million and \$.9 million, or 1.7 percent and 14.4 percent, respectively, due largely to printing costs associated with the new \$30 Scratchers ticket.

Draw Game vendor fees decreased by \$1.7 million, or 12.8 percent, with the absence of fiscal year 2016's record Powerball jackpot. In fiscal year 2016, Draw Game vendor fees increased by \$5.0 million, or 60.1 percent, due to instant ticket vending machine leasing costs formerly recorded as other general and administrative costs being included as Draw Game vendor fees under the new computer gaming system contract. Beginning July 1, 2015, a new computer gaming system agreement took effect consisting of a single percentage of net weekly Draw Game sales for all services; instant ticket vending machine leasing is not a separate percentage under the new agreement. Annual lease expense for the instant ticket vending machines totaled approximately \$3,217,000 in fiscal year 2015. The remaining increase can be attributed to the record Powerball jackpot and the \$54.9 million increase in Draw Game ticket sales in fiscal year 2016. The annual variances in this category will not exactly mirror the percentage change in sales, as the level of free and promotional tickets, as well as any system performance credits, will affect the actual annual expense amount.

Pull-Tab vendor fees increased by \$1.5 million and \$1.6 million in fiscal years 2017 and 2016, or 52.7 percent and 126.5 percent, respectively, as a result of increased Pull-Tab sales from the expansion of the program to liquor-by-the-drink locations in December of 2015. Liquor-by-the-drink locations were removed from the program in March 2017.

### **Other Operating Expenses**

Other operating expenses include advertising, personal services, fringe benefits, marketing and promotional expenses, utilities and facility costs, communication services and other administrative costs. The Lottery is subject to the budgetary and appropriation process of the State of Missouri. Management develops budgets for these expenses, within the total amounts appropriated by the State, based upon current economic conditions,

(An Enterprise Fund of the State of Missouri)

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

business plans and market conditions, with actual results continuously monitored to ensure that overall business objectives are met in the most effective and efficient manner. In fiscal year 2017, other operating expenses increased by \$1.8 million, or 5.36 percent, due mostly to increased GASB 68 pension expense.

In fiscal year 2016, other operating expenses increased by \$1.0 million, or 2.88 percent, due to no restrictions on advertising spending offset by instant ticket machine leasing costs included as Draw Game vendor fees in fiscal year 2016.

The level of depreciation expenses is generally a function of capital asset acquisition activity. A significant portion of the Lottery's vehicle fleet has been replaced during the last three years, as well as necessary upgrades, replacements and additions of computer equipment and related items, resulting in fairly flat depreciation expenses in recent years.

### Nonoperating Revenues (Expenses)

_	For the	Year Ended June	30,
_	2017	2016	2015
Interest	\$186,447	\$104,369	\$77,934
Unclaimed prizes	19,209,102	12,023,258	16,788,784
Gain (Loss) on sale of capital assets	(18,788)	13,335	49,465
Net increase (decrease) in investments held			
for grand-prize winners	(1,098,544)	3,018,090	1,342,321
Amortization of grand-prize winner liability	(1,370,943)	(1,501,380)	(1,644,196)
Transfers to State of Missouri	(291,583,694)	(302,582,776)	(271,252,985)

The Lottery earns interest on its share of the common cash pool with the State Treasurer's Office, as well as interest on an imprest fund account utilized to pay prizes. Interest is also earned on funds receivable from the Multi-State Lottery Association (MUSL). The increase in interest earnings for fiscal year 2017 is due to higher interest rates while fiscal year 2016 interest earnings reflects increased cash balances coupled with higher interest rates.

The Lottery retains prize money if a claim for the prize is not made within a 180-day claim period. In fiscal year 2017, the level of unclaimed prizes increased by \$7.2 million over fiscal year 2016. This line item fluctuates considerably from year to year, depending on the timing of Scratchers game closings and the unpredictability of prizes going unclaimed.

In fiscal year 2016, the level of unclaimed prizes decreased by \$4.8 million over fiscal year 2015.

The net increase (decrease) in investments held for grand-prize winners represents the net market value change. Amortization of the grand-prize winner liability represents the accretion of interest to the securities held to maturity to fund the grand-prize winner payments.

As to the gain or loss from the disposal of capital assets, the variances generally reflect the effects of the number of vehicles that were surplused during each fiscal year. In fiscal year 2017, nine vehicles were surplused and sold at surplus property which was offset by a loss associated with disposition of computer equipment. In fiscal year 2016, four vehicles were surplused. In fiscal year 2015, fourteen vehicles were surplused.

All net proceeds are transferred to the Lottery Proceeds Fund for Education. Net proceeds for fiscal year 2017 decreased \$11.0 million, or 3.6%. Net proceeds for fiscal year 2016 increased \$31.3 million, or 11.6%, due largely to the record \$1.6 billion Powerball jackpot. The Governor's Office and the Legislature determine where these funds will be expended within the state's public institutions of elementary, secondary and higher education.

# Management's Discussion and Analysis (Unaudited) For the Fiscal Years Ended June 30, 2017 and 2016

## **Capital Assets and Long-Term Debt**

The Lottery's capital assets consist of land, buildings, vehicles, computers and software, and other equipment. Capital assets are not a significant part of the Lottery's total assets. Additional detailed information on capital assets can be found in Note 6 to the financial statements.

The Lottery has no long-term liabilities other than the long-term annuitized payments to Lottery winners, deferred transfers to the State of Missouri, and net pension liability recorded pursuant to GASB 68. Additional detailed information on long-term liabilities may be found in Note 11 to the financial statements.

### Contacting the Lottery's Financial Management

This management discussion and analysis report is designed to provide Missouri citizens, government officials, players, retailers and other interested parties reliable financial information and an explanation of the Lottery's financial activities for the fiscal years ended June 30, 2017 and 2016. If you have questions about this report or need additional information, contact the Missouri State Lottery Commission, Financial Accounting Section, P.O. Box 1603, Jefferson City, Missouri 65109-1603.

# Notes To The Basic Financial Statements June 30, 2017 and 2016

# 1. Summary of Significant Accounting Policies

The Missouri State Lottery Commission (the Lottery) was created by the passage of a constitutional amendment on November 6, 1984 by the citizens of the State of Missouri. The Lottery is a Type III division assigned to the Missouri Department of Revenue as defined in Section 313.210 of the Missouri Revised Statutes. The Department of Revenue has no control, supervision or authority over the actions or decisions of the Lottery. The Lottery's Commission consists of five members appointed by the Governor with the advice and consent of the Senate. The day-to-day operations are administered by the executive director and administrative staff as designated by the Commission.

For financial reporting purposes, the Lottery is considered an enterprise fund of the State of Missouri. Additional disclosures related to Missouri's self-insurance funds, unemployment insurance compensation, state pension plans, post-employment benefits, and workers' compensation benefits are included in the State of Missouri's Comprehensive Annual Financial Report.

These financial statements include all Lottery activity and do not include any activity related to any other state agency or fund.

#### **Basis of Presentation**

The Lottery is accounted for as a proprietary, business-type activity enterprise fund. The financial statements of the Lottery have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Enterprise funds are used to account for activities that are financed and operated in a manner similar to private business enterprises where the costs of providing goods and services to the general public on a continuing basis are to be financed through user charges or where the periodic determination of net income is appropriate.

### **Basis of Accounting**

The term "basis of accounting" refers to when revenues, expenses and the related assets and liabilities are recognized in the accounts and reported in the financial statements. The term "measurement focus" refers to what is being measured. The financial statements are prepared on the accrual basis of accounting and on an economic resources measurement focus in accordance with GAAP.

The Lottery distinguishes operating revenues and expenses from nonoperating items. The principal operating revenues of the Lottery primarily consist of sales from Scratchers, Draw Game and Pull-Tab tickets. Operating expenses primarily consist of payments to prize winners, commissions to retailer agents, payments to vendors and employees, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### **Revenue Recognition**

Sales of Scratchers tickets are made to licensed retail sales outlets with the right of return. Ticket sales are recognized upon the sale of tickets to licensed retailers and are valued at the sale price to the player. Allowances of approximately \$2,142,263 and \$1,775,132 at June 30, 2017 and 2016, respectively, have been established for estimated tickets to be returned by retailers.

Sales of Draw Game lottery tickets are generated by the semiweekly Lotto, Powerball, Lucky for Life, and Mega Millions games, and the daily Club Keno, Show Me Cash, Pick 4 and Pick 3 games. \$250K Triple Play was a semiweekly drawing. Lotto, Show Me Cash, Pick 4 and Pick 3 games have the EZ Match option in which players instantly win the prize amount printed next to the matched EZ Match numbers. Sales of Draw Game lottery tickets are made through licensed retail sales outlets via Draw Game terminals maintained by the retailers.

(An Enterprise Fund of the State of Missouri)

# Notes To The Basic Financial Statements June 30, 2017 and 2016

### 1. Summary of Significant Accounting Policies (continued)

### Revenue Recognition (continued)

Revenue is recognized for Draw Games when tickets are sold to players and the related draw occurs. Unearned revenues from these sales represent tickets sold for future prize drawings. Unearned revenues were \$815,442 and \$1,188,869 as of June 30, 2017 and 2016 and are included in other accrued liabilities.

Sales of the new Pull-Tabs product began October 2013. Sales are generated daily through Pull-Tab dispensers at licensed retail sales outlets. Revenue is recognized for Pull-Tabs when tickets are dispensed to players.

Operating revenues are presented net of sales returns, cancellations and promotional tickets of \$60,241,097 and \$57,470,396 for the years ended June 30, 2017 and 2016, respectively.

#### Prizes

Expenses for Draw Game lottery ticket prizes are recorded based on a minimum of 45 percent of Draw Game lottery ticket sales. This amount is recognized and accrued as prize liability. Actual prizes paid are treated as a reduction of the prize liability.

Lotto grand-prize winners have the choice of receiving their prize in 25 annual installments or a portion of the prize in one lump-sum payment. Powerball and Mega Millions grand-prize winners have the choice of receiving their prize over 29 years (30 annual graduated installments) or a portion of the prize in one lump-sum payment. Lucky for Life top and second prize winners have the choice of receiving their prize annually for life (minimum of 20 years) or in one lump-sum payment.

Expenses for Scratchers ticket prizes are recorded based upon the unique, predetermined prize structure for each game and are accrued as tickets are sold to the retailer.

Pull-Tab prizes are recorded at actual prizes paid.

#### **Unclaimed Prizes**

State statutes require that unclaimed prize monies be retained by the Lottery for the person entitled thereto for 180 days after the time the prize was awarded. If no claim is made for the prize within such time, the prize money reverts to the Lottery. Effective July 1, 2000, at the directive of the State of Missouri, the Lottery transfers to the Lottery Proceeds Fund all prizes that remain unclaimed. During the years ended June 30, 2017 and 2016, unclaimed prizes in the amount of approximately \$19,209,000 and \$12,023,000 were transferred to the Lottery Proceeds Fund. For the years ended June 30, 2017 and 2016, this amount has been included as nonoperating revenue on the statements of revenues, expenses and changes in net position with a corresponding amount included as a transfer to the State of Missouri.

#### Cash and Cash Equivalents

For purposes of the statements of cash flows, cash and cash equivalents consist of cash in banks, repurchase agreements and funds on deposit with the State Treasurer. The Lottery considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

#### **Investments Held for Grand-Prize Winners**

Since March 1990, the Lottery has purchased U.S. Treasury Zero Coupon Bonds to fund future payments under grand-prize winner prize claims. The maturities of these bonds approximate deferred grand-prize annuity installment amounts and due dates. The securities purchased are held in the Lottery's name in safekeeping by the Federal Reserve Bank in a separate account. The investments in these securities are carried at fair value. The Lottery categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

(An Enterprise Fund of the State of Missouri)

# Notes To The Basic Financial Statements June 30, 2017 and 2016

# 1. Summary of Significant Accounting Policies (continued)

#### Retailer Fees

Retailers are charged a fee when licensed to sell lottery tickets. Additionally, retailers pay an annual fee in lieu of obtaining an insurance bond. Such fees are used to offset uncollectible accounts receivable from retailers. The Lottery has not established an allowance for bad debt as this amount has been determined to be immaterial to the accounts receivable balance.

#### **Capital Assets**

Property and equipment greater than \$1,000 are carried at cost, less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated lives of the related assets, which range from three to fifteen years for autos, computers, equipment, and other assets and nineteen years for buildings.

When assets are retired or otherwise disposed, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in nonoperating revenues and expenses for the period.

#### **Net Position**

Restricted net position represents the unrealized gains or losses on investments held for grand-prize winners. Certain investments are reported at fair value with gains and losses reflected in the statement of revenues, expenses and changes in net position. As required by the Missouri Constitution and state statutes, the Lottery uses investments only to fund its annuity prize obligations and intends to hold the investments to maturity. Market gains or losses represent temporary fluctuations and are not recognized in the calculation of the amounts due to the Lottery Proceeds Fund.

#### **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### Due to Lottery Proceeds Fund

All income before transfers of the Lottery, except for the net increase in the fair value of investments held for grand-prize winners, amortization of grand-prize winner liabilities and the change in net position related to pensions (calculated using a one-year lag), as described in the accompanying statements of revenues, expenses and changes in net position, accrues to the benefit of the State of Missouri. Transfers are made to the Lottery Proceeds Fund, which shall be appropriated by the State solely for the institutions of public elementary, secondary and higher education.

The Lottery makes estimated weekly transfers to the Lottery Proceeds Fund with a monthly transfer adjustment done based on calculated net income before transfers. A portion of the liability to the Lottery Proceeds Fund, equal to the net book value of capital additions after September 1, 1988, and all amounts receivable from the Multi-State Lottery Association, is shown as a long-term liability and is not subject to current transfers.

(An Enterprise Fund of the State of Missouri)

# Notes To The Basic Financial Statements June 30, 2017 and 2016

## 1. Summary of Significant Accounting Policies (continued)

#### **Compensated Absences**

Under the terms of the Lottery's personnel policy, employees are granted vacation and sick leave in varying amounts, based upon length of service. In the event of termination or separation, an employee is generally paid for accumulated vacation up to 240 hours if in service for less than ten years; 288 hours for service between ten and fifteen years; and 336 hours if service exceeds fifteen years. Accordingly, it is the Lottery's policy to record vacation pay as an expense as it is earned. The amount of earned but unused accumulated vacation is included as an accrued liability in the accompanying financial statements. Retiring employees receive an additional month of credited service for every twenty-one days of accumulated sick leave on the date of termination. Credited service is used to calculate retirement benefits administered by the Missouri State Employees Retirement System. The amount of earned but unused sick leave has no material financial effect on the Lottery.

#### Risk Management

The Lottery's risk management activities for workers' compensation and unemployment are recorded in the Workers' Compensation Fund and the Employment Security Fund, funds of the State of Missouri. The Lottery reimburses these funds for actual disbursements made on the Lottery's account.

Employees are offered various health insurance coverage programs administered by the Missouri Consolidated Health Care Plan (MCHCP). The Lottery contributes a fixed monthly payment for each covered employee to MCHCP as appropriated by the General Assembly of the State of Missouri.

The Lottery's major assets including data processing equipment, buildings and business interruption are insured by a third-party carrier maintained by the Office of Administration - Risk Management.

There were no significant reductions in insurance coverage from the prior year. Insurance settlements did not exceed insurance coverage in the past three years.

#### **Budgetary Authority**

The Lottery annually submits a request for appropriation through the budgetary process of the State of Missouri. All expenses of the Lottery are subject to the State of Missouri appropriation process.

## Marketing, Advertising and Promotion

The Lottery expenses the costs of marketing, advertising and promotions as they are incurred. In addition to \$16 million spent for advertising in fiscal years 2017 and 2016, the Lottery spent \$1.9 million and \$2.3 million on sponsorships and promotional supplies in fiscal years ended June 30, 2017 and 2016, respectively.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri State Employees' Plan (MSEP) and additions to/deductions from MSEP's fiduciary net position have been determined on the same basis as they are reported by MSEP. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Subseauent Events

The Lottery has performed a review of events subsequent to the statement of net position date through November 28, 2017, the date the financial statements are available to be issued.

(An Enterprise Fund of the State of Missouri)

# Notes To The Basic Financial Statements June 30, 2017 and 2016

# 2. Statutory Requirements

Missouri statutes provide that a minimum of 45 percent of the money received from the sale of lottery tickets shall be allocated to prizes. The costs of operating the Lottery, including all commissions to retailers, promotional costs, and all other administrative expenditures, are appropriated by the General Assembly of the State of Missouri.

The Lottery receives certain services for no charge from other Missouri state government agencies. Tax clearance and driver's license checks are provided by the Department of Revenue. The Office of Administration provides services related to employee benefits and certain capital improvements, procurements, and facilities-related items.

### 3. Cash and Cash Equivalents

Cash, other than petty cash and the imprest fund, is part of the common cash pool in the State Treasury. The State of Missouri invests such cash in excess of what is necessary to meet current obligations. The fair value in the common cash pool is the same as the value of the pool shares. At June 30, 2017 and 2016, the Lottery's share in the State's common cash pool was \$29,926,978 and \$26,674,014, respectively. At June 30, 2017 and 2016, the book balance of the imprest fund was \$7,568,886 and \$9,363,107, respectively, and the bank balance was \$9,199,270 and \$9,938,224, respectively.

Collateral is required by state statutes for demand deposits and certificates of deposit. The fair value of collateral must equal 100 percent of deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral are governed by state statute and include U.S. government and U.S. agency bonds and securities, general obligation bonds of any of the fifty states, general obligation bonds of any Missouri county and certain cities and special districts, and revenue bonds of certain Missouri agencies. Written custodial agreements are required which provide, among other things, that the collateral be held separate from the assets of the custodial bank.

Custodial credit risk is the risk that, in the event of a bank failure, the Lottery's deposits may not be returned to it. The Lottery does not have a deposit policy for custodial credit risk. The Lottery's imprest fund was fully collateralized by FDIC insurance and pledged collateral at June 30, 2017 and 2016. Because the Lottery's share of the State's Treasury is a pooled investment, the balance of this account is not subject to custodial credit risk.

#### 4. Investments Held For Grand-Prize Winners

As provided for by Article III, Section 39(b) of the Missouri Constitution, the Lottery purchases United States Treasury Zero Coupon Bonds for the specific purpose of funding future grand-prize winner prize claims. The recurring fair value measurements of these investments at June 30, 2017 and 2016 using quoted market prices (Level 1 inputs) was \$36,545,238 and \$39,391,259, respectively. The maturity value of securities held at June 30, 2017 and 2016 was \$42,948,000 and \$43,980,000, respectively.

At June 30, 2017 and 2016, the Lottery had the following investments:

		Investment Maturities (In Years)				
Investment Type	Fair Value	Less Than 1	1-5	6-10	More Than 10	
United States Treasury						
Zero Coupon Bonds						
June 30, 2017	\$36,545,238	\$3,416,653	\$13,080,505	\$12,132,175	\$7,915,905	
June 30, 2016	\$39,391,259	\$3,929,370	\$12,922,854	\$13,197,857	\$9,341,178	

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 4. Investments Held For Grand-Prize Winners (continued)

Investments in prize annuities are subject to changes in fair value due to interest rate risk. However, to satisfy the annual installment obligations to prize winners, these bonds are held to maturity. The fair value at maturity is the face value of the bonds, regardless of the changes in value during the time that the investments are outstanding.

#### 5. **Draw Game Ticket Sales**

Draw Game ticket sales for the year ended June 30, consist of the following:

	2017	2016
Lotto	\$ 18,280,882	\$ 21,374,724
Pick 3	74,396,147	73,244,815
Powerball	94,886,472	130,774,026
Show Me Cash	29,834,262	29,260,709
Pick 4	48,279,354	46,410,375
Club Keno	56,746,940	59,642,782
Mega Millions	32,172,193	34,603,961
EZ Match – Show Me Cash	2,987,888	3,293,204
EZ Match – Lotto	241,215	-
EZ Match – Pick 3	534,136	-
EZ Match – Pick 4	448,894	-
\$250K Triple Play	-	1,518,956
Lucky For Life	7,818,884	8,429,647
	\$ 366,627,267	\$ 408,553,199

#### 6. Capital Assets

The changes in capital assets for the year ended June 30, consist of the following:

	June	30, 2016	Increases	Decreases	June 30, 2017
Capital assets not being depreciated

#### 7. Pension Plan

#### **Plan Description**

The Lottery participates in the Missouri State Employees' Plan (MSEP) (the Plan), a cost-sharing, multiple-employer defined benefit public employees' retirement plan administered by Missouri State Employees' Retirement System (MOSERS). Chapter 104.320 of the Revised Statutes of Missouri grants the authority to establish and amend benefit terms to the MOSERS Board of Trustees. Substantially all full-time employees of the Lottery are covered by the Plan. MOSERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to: Missouri State Employees' Retirement System, 907 Wildwood Drive, P.O. Box 209, Jefferson City, Missouri 65102, by calling (800) 827-1063 or by visiting www.mosers.org.

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 1, 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

#### **Benefits Provided**

MOSERS provides retirement, disability, and life insurance benefits to eligible employees. Employees covered by the MSEP and the MSEP 2000 plans are fully vested after 5 years of creditable service. Employees covered by the MSEP 2011 plan are fully vested after 10 years of creditable service. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. Retirement eligibility requirements are as follows:

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 7. Pension Plan (continued)

**Benefits Provided (continued)** 

#### **MSEP**

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 55 with at
least 10 years of service with reduced benefits
The base benefit in the general employee plan is
equal to 1.6% multiplied by the final average
pay multiplied by years of credited service.

#### MSEP 2000

Age 62 with 5 years of service

Age 48 with age and service equaling 80 or more (Rule of 80)

Employees may retire early at age 57 with at least 5 years of service with reduced benefits

The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

#### MSEP 2011

Age 67 with 10 years of service Age 55 with age and service equaling 90 or more (Rule of 90)

Employees may retire early at age 62 with at least 10 years of service with reduced benefits.

The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP may make a one-time election to receive the present value of their benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

#### **Contributions**

Per Chapter 104.436 RSMo., contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4% of the annual pay. The Lottery's required contribution rates for the years ended June 30, 2017 and June 30, 2016 were 16.97% and 16.96%, respectively, of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Lottery contributions to the MSEP at June 30, 2017 and 2016 were \$1,137,914 and \$1,154,280, respectively.

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, a liability of \$16,213,218 was reported for the proportionate share of the Lottery's net pension liability in the MSEP. The net pension liability and proportionate share were measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 7. Pension Plan (continued)

### <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)</u>

The Lottery's proportion of the net pension liability was based on Lottery's contributions of wages to the pension plan relative to the contributions of all participating reporting units, actuarially determined. At the June 30, 2016 measurement date, the Lottery's proportion was .35%, no significant change from its proportion measured using .35% as of the June 30, 2015 measurement date.

There were no changes in benefit terms during the MSEP plan year ended June 30, 2016, that affected the measurement of total pension liability.

For the years ended June 30, 2017 and 2016, the Lottery recognized pension expense of \$2,452,558 and \$1,081,759, respectively. At June 30, 2017, the Lottery reported deferred outflows of resources and deferred inflows of resources related to pensions as follows:

1	Deferred Outflows of Resources	Deferred Inflow of Resources
Difference between expected		
and actual experience	\$167,907	\$47,634
Changes of assumptions	1,697,487	97,994
Net difference between		
projected and actual earnings		
on pension plan investments	2,663,789	
Changes in proportion and		
difference between Lottery		
contributions and Proportionate		
share of contributions		16,536
Lottery contributions subsequent		
to the measurement date	1,137,914	
Total	\$5,667,097	\$162,164

Amounts reported as deferred outflows of resources related to pensions resulting from Lottery contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

_	
Year Ended June 30	Net Deferred Outflows (Inflows) of Resources
2018	\$1,121,831
2019	1,121,958
2020	1,657,367
2021	465,863
2022	
Thereafter	
Total	\$4,367,019

#### **Actuarial Assumptions**

The total pension liability in the June 30, 2016 actuarial valuation, which is also the date of measurement for GASB 68 purposes, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 7. Pension Plan (continued)

#### Actuarial Assumptions (continued)

Inflation 2.5%

Salary Increases 3.25% to 8.75% including inflation

Wage Inflation 3.0%

Investment Rate of Return 7.65%, compounded annually, net after investment expenses

including inflation

Mortality: Mortality rates for post-retirement mortality are based on the RP-2014 Healthy Annuitant mortality table, projected to 2026 with Scale MP-2015 and scaled by 120%. The pre-retirement mortality table used is the RP-2014 Employee mortality table, projected to 2026 with Scale MP-2015 and scaled by 95% for males and 90% for females.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015. As a result of this actuarial experience study, the MOSERS Board made various demographic and economic assumption changes to more closely reflect actual experience. The most significant changes included lowering the assumed annual investment rate of return from 8 percent to 7.65 percent and the adoption of the above mortality tables. The changes in assumptions recorded as deferred inflows and outflows of resources were due to these changes from the actuarial experience study.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates rates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in MOSERS target asset allocation as of June 30, 2016, are summarized in the following table:

			weighted Average
		Long-Term Expected	<b>Long-Term Expected</b>
Asset Class	<b>Target Allocation</b>	Real Rate of Return*	Real Rate of Return
Beta-balanced	80%	5.7%	4.6%
Illiquids **	20%	7.3%	1.5%
•	100.0%		6.1%

XX7-2-1-4--1 A-----

#### Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will be made at required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<sup>\*</sup> Represent best estimates of geometric rates of return for each major asset class included.

<sup>\*\*</sup> Illiquid portfolio upper limit of 27.5% of capital, no new commitments past 23%.

(An Enterprise Fund of the State of Missouri)

#### Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 7. Pension Plan (continued)

#### <u>Sensitivity of the Lottery's Proportionate Share of Net Pension Liability to Changes in the Discount Rate</u>

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents net pension liability, calculated using a single discount rate as well as what net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

		Current Single Discount	
	1% Decrease	Rate Assumption	1% Increase
	6.65%	7.65%	8.65%
Lottery's Proportionate Share			
of Net Pension Liability	\$21,348,939	\$16,213,218	\$11,907,359

#### <u>Pension Plan Fiduciary Net Position</u>

Detailed information about the pension plan's fiduciary net position is available in the separate financial reports issued by MOSERS which may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

#### Payables to the Pension Plan

The Lottery had payables to MOSERS for the pension plan of approximately \$46,000 and \$48,000 as of June 30, 2017 and 2016, respectively, due to the state's half month lag payroll.

#### 8. Leases

#### **Operating Leases**

The Lottery's regional facilities are held under operating lease agreements. The lease agreements for both the St. Louis and Springfield offices are under a one year agreement with four one-year renewal options set to expire June 30, 2019. The lease agreement for the Kansas City office began January 1, 2016 and ended June 30, 2016 with four one-year renewal options that expire June 30, 2020. Annual rent expense for these facilities for the years ended June 30, 2017 and 2016 totaled approximately \$280,000 and \$275,000, respectively.

The Lottery leases warehouse space in Jefferson City to store Scratchers tickets on hand. The lease term began January 1, 2016 and ended June 30, 2016 with one one-year renewal option that expired June 30, 2017. The lease agreement was amended to extend the lease through June 30, 2018. Rent expense for the year ended June 30, 2017 was \$8,101 and for the six months ended June 30, 2016 was \$4,051.

The Lottery also leases copiers for its headquarters and regional offices.

Future minimum lease payments under all non-cancelable leases having initial or remaining terms in excess of one year as of June 30, 2017 are as follows:

Years Ending June 30	
2018	\$ 323,000
2019	308,500
2020	116,700
2021	3,900
2022	500
	\$ 752,600

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 9. Contractual Arrangements

The Lottery maintains contractual arrangements with providers of goods and services critical to the Lottery's operations. Significant contracts include an agreement with the provider of the Lottery's Draw Game computer systems, agreements with producers of the Lottery's Scratchers games tickets, and an agreement for advertising services, among others. The contracts require the Lottery to compensate vendors for goods and services that meet stated quality standards. Scratchers game tickets are purchased on a percentage of sales basis. Scratchers tickets on hand in the Lottery's warehouse are held on a consignment basis and are not recorded as inventory.

The Lottery is a member of the Multi-State Lottery Association (MUSL) which consists of 36 member lotteries and operates the Powerball game and the Mega Millions game. Under separate agreements between MUSL and each lottery, the member lotteries sell tickets for the Powerball game and remit 50 percent of sales to MUSL for payment of prizes. On January 31, 2010 the Lottery began selling the Mega Millions jackpot game as an historic cross-selling agreement between Mega Millions and Powerball. Member lotteries sell tickets for the Mega Millions game and currently remit 50 percent of sales to MUSL for payment of prizes. Member lotteries also fund MUSL's operating expenses based on allocations by MUSL.

Powerball and Mega Millions grand-prize winners have the choice of receiving their prize over 29 years (30 annual graduated installments) or a portion of the prize in one lump-sum payment. Investment securities, with maturities that approximate all grand-prize winner payments due to winners of MUSL games, are maintained by MUSL. The investments and related prize liabilities for winners of these games from the State of Missouri are excluded from the accompanying financial statements. Future grand-prize winner payments of MUSL games due to winners in Missouri are approximately \$27,264,000 and \$28,182,000 as of June 30, 2017 and 2016, respectively.

The Lottery has contributed to a prize reserve fund and set prize reserve fund, separately maintained by MUSL, to protect MUSL members in case of unforeseen liabilities and to pay certain prizes associated with Powerball and Mega Millions, respectively. With certain restrictions, these fund balances are refundable to member lotteries upon termination of the member's agreement with MUSL or upon the disbanding of MUSL. At June 30, 2017 and 2016, the Lottery's portion of the prize reserve fund and set prize reserve fund for Powerball was approximately \$3,098,000 and \$3,230,000, respectively, and \$1,549,000 and \$1,404,000, respectively. At June 30, 2017 and 2016, the Lottery's portion of the prize reserve fund for Mega Millions was approximately \$1,619,000 and \$1,581,000, respectively. The Lottery has charged amounts placed into the prize reserve funds to prize expense as the related sales have occurred. The reserve funds are not reflected on the Lottery's statement of net position as of June 30, 2017 and 2016, respectively.

The Lottery has contributed to an account with MUSL which is used to pay certain operating expenses incurred by member lotteries for the Powerball game and the Mega Millions game. With certain restrictions, the balances in this account are refundable to the member lotteries upon termination of the member's agreement with MUSL or upon the disbanding of MUSL. At June 30, 2017 and 2016 the Lottery's portion of the balance of this account was \$48,167 and \$112,752, respectively, and is reported as other assets.

Lucky for Life is the Lottery's newest multi-state Draw Game. It is currently offered in 20 states and D.C. The Lottery sells Lucky for Life tickets, collects all revenues, and remits prize funds and operating funds to MUSL. While Lucky for Life is not a MUSL game, the party lotteries pay a fee to MUSL to act as the game administrator (clearinghouse agent) for the Lucky for Life game. MUSL collects and re-distributes funds to the party lotteries when funds are due and purchases insurance annuities for the top two highest prize tiers when a winner does not choose a cash pay-out.

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 9. Contractual Arrangements (continued)

Lucky for Life's top two prize tiers are payable in installments and are satisfied through insurance annuities purchased by MUSL when a winner chooses the annuity option. MUSL purchases insurance annuities, on behalf of the member states, based on \$365,000 (top prize tier) or \$25,000 (second highest prize tier) per year deferred annuity paid annually on the anniversary of the claim date for the lifetime of the top prize winner. Accordingly, the Lottery does not record an obligation for jackpot awards which are payable in installments from funds provided by MUSL or the other party lotteries. The Lottery does accrue a current amount due for its proportionate share of prizes and expenses. There are no prize reserves held by MUSL for Lucky for Life. The Lottery had an accounts receivable due from the other states of \$25,352 and \$240 for shared low-tier prizes as of June 30, 2017 and 2016, respectively. The Lottery's share of accrued operating expenses at June 30, 2017 and 2016 was \$2,709 and \$2,733, respectively.

#### 10. Amounts Held On Behalf of Grand-Prize Winners Liability

The Lottery has an implied contract to make future installment payments to grand-prize winners, and as such, recognizes this as amounts held on behalf of grand-prize winners. Amounts due to grand-prize winners are carried at the estimated present value of the prizes that will eventually be awarded. The present value of these payments at June 30, 2017 and 2016 was \$32,910,471 and \$33,287,004 respectively. This is funded with the maturing U.S. Treasury Zero Coupon Bonds that are restricted for this purpose.

The balances of these maturities at June 30, 2017, are as follows:

Fiscal Year	 Amount
2018	\$ 3,434,000
2019	3,434,000
2020	3,434,000
2021	3,434,000
2022	3,434,000
2023 through 2027	14,266,000
2028 through 2032	7,100,000
2033 through 2037	3,576,000
2038 through 2041	 836,000
Total installment payments due	42,948,000
Less- Interest portion	 10,037,529
	\$ 32,910,471

The Lottery has also purchased annuity contracts in the name of the prize winners from selected insurance companies to fund certain grand-prize claims. Because it is the intent of the Lottery that the insurance companies make future installment payments directly to each prize winner, neither the value of the annuities nor the value of the related future payments are reflected in the accompanying financial statements. The Lottery would assume liability for future payments if the insurance companies were to default on their payments; however, this possibility is remote and therefore no liability is recorded. Future payments to be made to grand-prize winners by these insurance companies totaled approximately \$9,695,000 and \$7,750,000 at June 30, 2017 and 2016, respectively.

(An Enterprise Fund of the State of Missouri)

## Notes To The Basic Financial Statements June 30, 2017 and 2016

#### 11. Long-Term Liabilities

The changes in long-term liabilities for the years ended June 30th consist of the following:

	June 30, 2016	Additions	Reductions	June 30, 2017	Current Portion
Due to Lottery Proceeds Fund Grand-prize winner liabilities Net pension liability	\$ 10,452,499 33,287,004 11,183,713	\$291,583,694 3,631,467 5,029,505	(\$297,874,416) (4,008,000)		\$1,569,218 3,434,000
Total	\$54,923,216	\$300,244,666	(\$301,882,416)	\$53,285,466	\$5,003,218
	June 30, 2015	Additions	Reductions	June 30, 2016	Current Portion
Due to Lottery Proceeds Fund	¢ 16 962 136	¢202 502 775	(#200 002 402)		Φ <b>σ.σ.σ.</b> 1 <b>σ</b> 0
Grand-prize winner liabilities Net pension liability	36,921,624 8,249,598	\$302,582,775 1,501,380 2,934,115	(\$308,993,402) (5,136,000)		\$7,757,178 3,936,000

#### 12. Postretirement Benefits

As a State agency, the Lottery participates in a cost-sharing multiple-employer defined benefit post-employment health care plan administered by the Missouri Consolidated Health Care Plan (MCHCP). Retirees who had medical insurance coverage for six months immediately prior to termination or state-sponsored medical insurance coverage since the effective date of the last enrollment period (or since first eligible), before they are eligible to retire, based on their plan's criteria, may continue coverage into retirement.

MCHCP medical insurance benefits are provided through self-funded preferred provider organizations (PPO). Generally, these include hospital, medical, mental health and substance abuse benefits and prescription drug benefits.

The Lottery's policy regarding retiree healthcare benefits is to pay the amounts billed through the State's fringe benefit rate on a pay-as-you-go basis. The Lottery has no obligation beyond the payment of the State's fringe benefit rate for retiree healthcare benefits. The State's policy is that the State is responsible for recording the annual required contribution and the actuarial accrued liability for the Lottery's retiree health care benefits in the State's government-wide financial statements.

#### 13. Contingencies

There are claims and/or lawsuits to which the Lottery is a party as a result of matters arising in the ordinary course of business. The final outcome of any claim or lawsuit is not presently determinable. Management does not anticipate the resolution of these matters to have a materially adverse effect on the financial condition of the Lottery.

(An Enterprise Fund of the State of Missouri)

#### **Required Supplementary Information** June 30, 2017

#### Schedule of Proportionate Share of the Net Pension Liability Last 10 Fiscal Years - See Note below

	<u>2017*</u>	<u>2016*</u>	<u>2015*</u>
Lottery's proportion of the net pension liability (asset)	0.35%	0.35%	0.35%
Lottery's proportionate share of the net pension liability (asset)	\$16,213,218	\$11,183,713	\$8,249,598
Lottery's covered-employee payroll	6,705,445	6,920,144	6,817,848
Lottery's proportionate share of the net pension liability (asset) as a percentage of its covered-employee payroll	241.79%	161.61%	121.00%
Plan fiduciary net position as a percentage of the total pension liability	63.60%	72.62%	79.49%

Note: This schedule will ultimately contain 10 years of data upon availability.

#### **Schedule of Agency Contributions** Last 10 Fiscal Years - See Note below

	<u>2017*</u>	<u>2016*</u>	<u>2015*</u>
Required Contributions	\$1,137,914	\$1,154,280	\$1,137,217
Contributions in relation to the required contribution	1,137,914	1,154,280	1,137,217
Contribution deficiency (excess)	-	-	-
Lottery's covered-employee payroll	6,705,445	6,920,144	6,817,848
Contributions as a percentage of covered- employee payroll	16.97%	16.96%	16.68%

(An Enterprise Fund of the State of Missouri)

## Notes To The Required Supplementary Information June 30, 2017

*Changes of benefit terms.* There were no changes to benefit terms in the plan for the year ended June 30, 2016.

*Changes of assumptions.* Economic demographic assumptions were updated by the Board of Trustees on July 16, 2016 to be first effective for the June 30, 2016 valuation. The most significant changes to these assumptions were the reduction of the investment return assumption from 8 percent to 7.65 percent and the adoption of new mortality tables. Mortality rates for post-retirement are now based on the RP-2014 Healthy Annuitant mortality table, projected to 2026 with Scale MP-2015 and scaled by 120%.

#### Missouri State Lottery Commission Statistical Information Section

This section of the Missouri State Lottery Commission's comprehensive annual financial report presents detailed information as a supplement to the information presented in the financial statements and note disclosures to assist readers in assessing the Lottery's overall financial health.

Contents	Page
Financial Trends  These schedules contain trend information from the current year and prior years' comprehensive annual financial reports to help a reader understand how the Lottery's financial performance and position have changed over time.	45
Revenue Capacity  These schedules contain information to help the reader assess factors affecting the Lottery's ability to generate sales of lottery tickets. Scratchers ticket game strategies, such as price points and launch schedules, affect the selection and availability of products for sale at retail locations. Information for draw sales by game, included in the financial trends section, provides data about the various drawing based games that are available to the public. The Lottery's statewide retailer network determines the market exposure for Scratchers and Draw Games.	52
Demographic and Economic Information  These schedules contain demographic and economic indicators to help a reader understand the environment in which the Lottery operates.	56
Operating Information  These schedules contain information about the Lottery's organizational structure, financial performance indicators compared to other lotteries in the United States and capital asset information.	59
With the exception of information on retailers and sales for each region, statistical in provided for the most recent ten years. In the future, data for this schedule will be	

and, in due course, the schedule will contain information for a ten-year period.

#### **Financial Trends**

Information for the Missouri State Lottery Commission for the last ten fiscal years, 2008 through 2017, is presented in the accompanying schedules and charts. The Missouri State Lottery Commission was created on November 6, 1984 by the passage of a constitutional amendment and began selling tickets in January 1986.

The following information is presented in the accompanying schedules and charts:

**Revenue** – includes sales, interest income, retailer fees and other income amounts. Interest income does not reflect interest from investments for Lotto payments.

**Sales** – reflects the face value of lottery tickets.

**Retailer commission and incentives** – includes the base commission and cashing, promotional and program incentive payments.

**Prizes** – reflects the liability incurred for payments to winners.

**Ticket costs** – includes the purchase cost of Scratchers and pull-tab tickets and payments to the Draw Game games service provider.

**Administration** – includes all operating expenses not included in prizes, retailer commissions and incentives or ticket costs.

**Transfers to the State** – reflects the transfer of net income, excluding unrealized gains on investments and amortization of grand-prize winner liability, to the Lottery Proceeds Fund for fiscal years 2008 through 2017. Transfers made during fiscal year 2017 include \$19,209,000 of unclaimed prizes. The Lottery Proceeds Fund is appropriated by the Missouri State General Assembly to the Department of Higher Education and the Department of Elementary and Secondary Education. Profits not yet transferred are shown on the balance sheet as a liability.

**Expenses and transfers** – includes prizes, retailer commissions and incentives, ticket costs and administration costs as described above, as well as transfers made to the state.

Unless otherwise noted, the source for the data used to prepare the following schedules and charts is the Financial Accounting Section of the Missouri State Lottery Commission.

	205,000 - 232,500	7.41% - 8.41%
Total Statewide Employment	2,746,227	

All figures are based on a calendar-year average.

Sources: Missouri Economic Research and Information Center

<sup>\*</sup>Number of State of Missouri employees includes only full-time personnel and does not include college or university employees. It also excludes Division of Administration and Division of Adult Institutions, which are considered substantial employers in Missouri. Their employment has been deducted from the State of Missouri total, because individually they are in the top ten of Missouri employers.

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Missouri State Lottery Commission Jefferson City, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Missouri State Lottery Commission, an enterprise fund of the state of Missouri, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Missouri State Lottery Commission's basic financial statements, and have issued our report thereon dated November 28, 2017.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Missouri State Lottery Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Missouri State Lottery Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Missouri State Lottery Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Missouri State Lottery Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
